

Town of Westminster
Commonwealth of Massachusetts

Capital Improvement Plan
Fiscal Years 2023 - 2027

Introduction

The following is the Capital Improvement Plan (CIP) as proposed by the Capital Planning Committee. Inclusion of capital requests in years beyond the current year does not necessarily mean that the Committee has voted to support those requests. The CIP is maintained by the Capital Planning Committee. This CIP document is published annually and is available to the Town of Westminster residents on the Town Website.

The CIP is a multi-year plan used to determine the financing and timing of capital projects for the Town of Westminster. It contains a list of capital projects proposed for the Town within the next five years and reflects the recommendations of citizens, boards, commissions, and staff from each of the Town departments. The CIP provides an overview of each proposed project and lists the cost, funding method and the fiscal year the estimated expenditures will take place.

Importance of the Capital Improvement Plan

The CIP is important for the Town of Westminster since bond rating agencies stress the value of a CIP for a municipality seeking to borrow funds. The lack of a well developed CIP for long-term planning would have a negative effect on the bond rating for the Town of Westminster and result in higher interest rates on bonds issued. The impact would mean more tax dollars going to pay for the interest on loans. Standard & Poor's Ratings Services has raised its long-term rating to 'AA+' from 'AA' for the Town of Westminster.

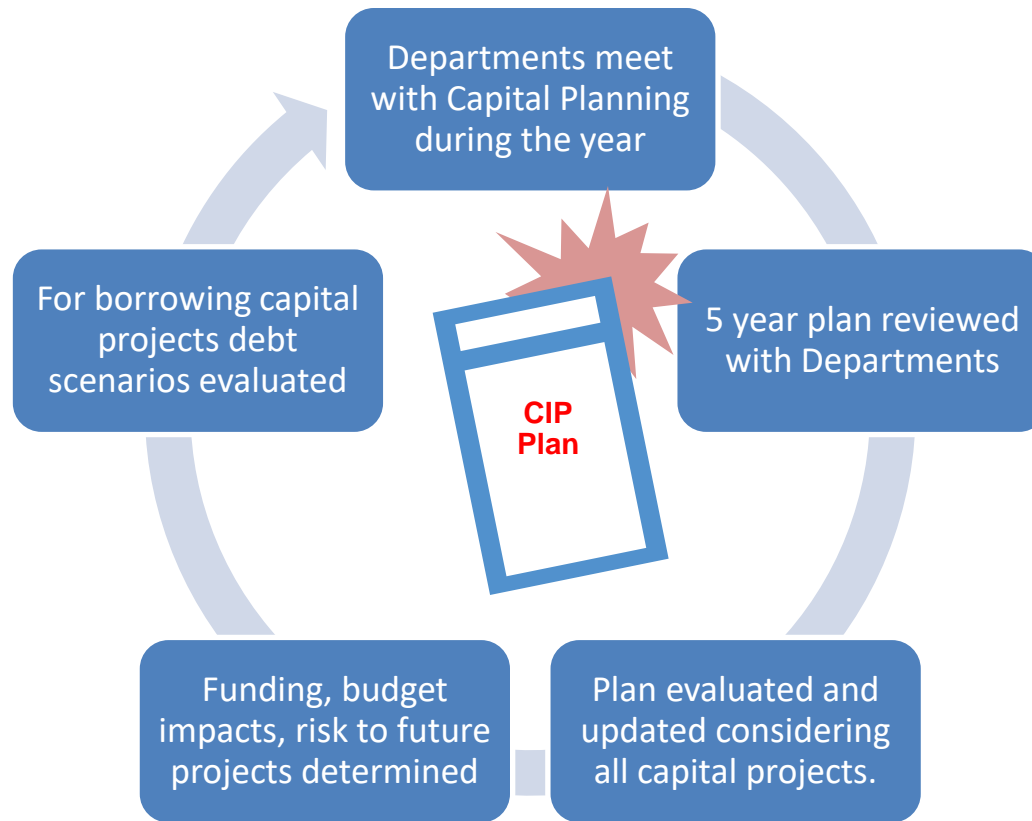

Additionally, a formalized process allows more time for the study of projects, encourages public discussion and allows boards, committees and citizens the opportunity to provide input, advice and recommendations with respect to proposed projects and expenditures. Another benefit from the capital planning process is that capital improvement efforts are coordinated and major capital projects can be timed so they roll into the debt schedule as other debt is ending. The development of a Capital Improvement Plan ensures sound fiscal and capital planning.

Funding

The CIP is financed from a variety of funding sources. The Capital Planning Committee identifies the funding source for each item/project on the five year plan. The Town has a number of stabilizations funds that are leveraged to finance a portion of the CIP. At the end of each fiscal year the annual certified free cash is determined. The Capital Planning Committee recommends a portion of this free cash be transferred to different stabilization funds based on the needs of the five year CIP. Using the stabilization funds to fund the five year CIP helps control the budget and in turn the impact to the tax payer.

Capital Plan Process

The capital planning process is an on-going process that takes place throughout the year. Although the capital plan is linked to the annual budget, the process of creating and maintaining the capital improvement plan is a continuous process of reviewing/refining. The Capital Planning Committee meets throughout the year with various boards and departments to review/update the CIP. The proposed capital projects are reviewed and prioritized based upon the capital planning priority table. Projects are also examined in terms of their relationship to other projects and their compatibility with Town-wide goals and objectives. The Capital Planning Committee also utilizes the debt management, reserve and general financial policies in the development of the CIP.

The Capital Planning Process is an iterative cycle that revolves around the CIP. Annually, the CIP is published by the Capital Planning Committee and the upcoming fiscal years capital planning items/projects are placed on the Annual Town Meeting warrant.

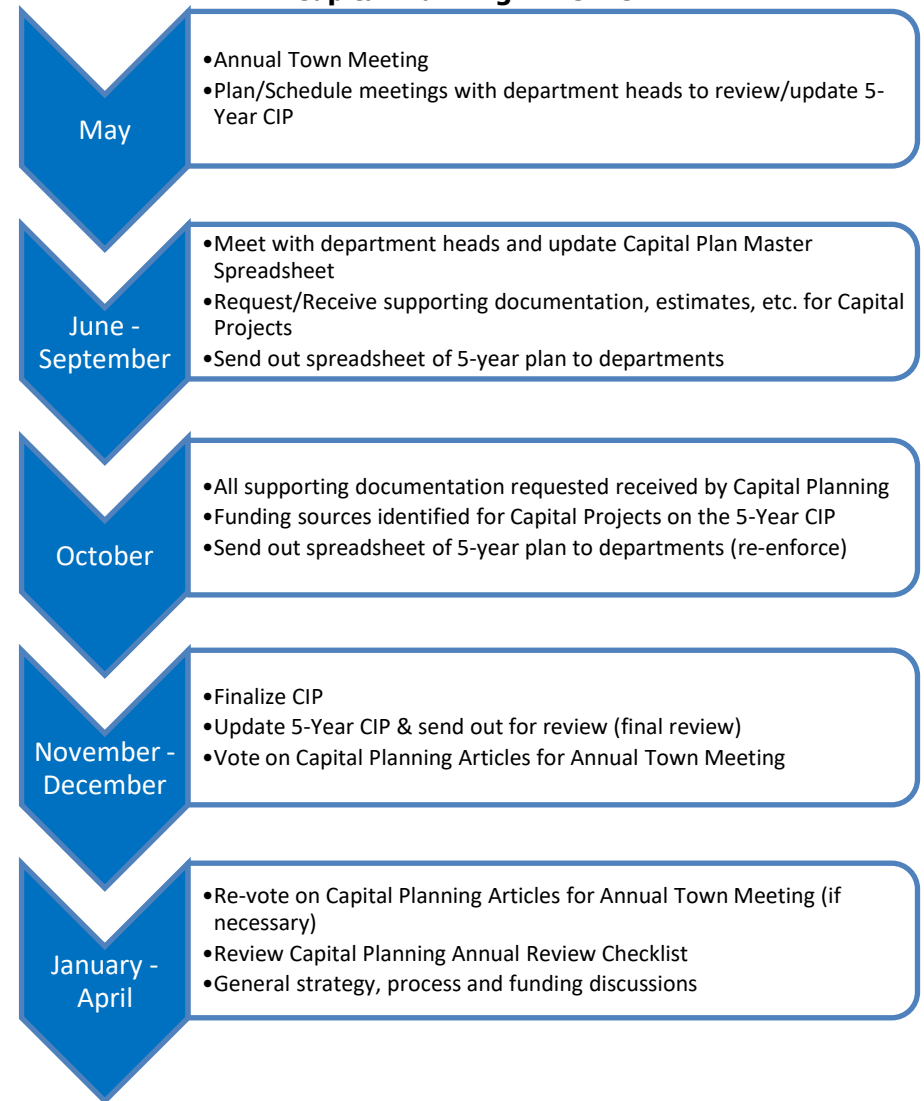

Capital Planning Guide/Timeline

Capital Planning is an ongoing process of planning and managing capital assets /projects. The following has been created by the Capital Planning Committee and is used as a guide for the capital planning process.

Capital Planning Guide

- The Capital Planning Committee will schedule meetings with department heads to review/update the 5-year Capital Improvement Plan (CIP) following the Annual Town Meeting. During these meetings department heads will provide updates on their various capital requests.
- Placeholders will not be used in the CIP – a project should be well defined when it is place on the CIP.
- Each project on the CIP should have supporting documentation (estimates, cost benefit analysis..etc.) as they move from year 4 to 3.
- Money from prior capital projects that have been approved at a prior Annual Town Meeting should not be used to fund future projects on the CIP. New capital projects should go through the capital planning process and be funded based on the capital planning priority/policies.
- The Capital Planning Committee will determine the funding source.
- The goal of the Capital Planning Committee is to finalize CIP for the next 5 years in the November/December time frame. The advantage of completing CIP prior to the start of budget season will allow the financial teams and department heads to focus on the operating budget and not the CIP.
- The Capital Planning Process is a separate from the annual budget process. The annual budget process no longer has a capital request form that can be used to submit capital requests for the next fiscal year. The CIP is a 5 year plan so adding new requests to the plan need to be considered well in advance and requires long term planning. If an emergency situation arises and something needs to be changed to the CIP the Capital Planning Committee should be contacted immediately.

Capital Planning Timeline

Capital Planning Bylaw

Chapter 15. CAPITAL PLANNING COMMITTEE

§ 15-1. Establishment; membership; officers. § 15-2. Study of capital projects and improvements. § 15-3. Development of policies and procedures. § 15-4. Submission of information concerning capital requests; consideration of and recommendation by Committee. § 15-5. Annual report; submission of budget. § 15-6. Publication of report and budget.

[HISTORY: Adopted by the Annual Town Meeting 5-4-2002 by Art. 43; amended in its entirety STM 2-26-2008 by Art. 14. Subsequent amendments noted where applicable.]

§ 15-1. Establishment; membership; officers.

The Board of Selectmen shall establish and appoint a committee to be known as the "Capital Planning Committee," composed of one member of the Board of Selectmen, one member of the Advisory Board, and three citizens at large. The Town Accountant, Treasurer/Collector, and Town Coordinator
Editor's Note: The Annual Town Meeting voted 5-1-2010 by Art 30 to authorize the Board of Selectmen to appoint a Town Administrator to replace the position of Town Coordinator. shall be ex-officio, nonvoting members of the Committee. The Committee shall choose its own officers.

§ 15-2. Study of capital projects and improvements.

The Committee shall study proposed capital projects and improvements involving major tangible assets and projects which: (1) have a useful life of at least three years; (2) have a dollar value of \$15,000 or greater.

§ 15-3. Development of policies and procedures.

The Committee shall develop policies and procedures, as necessary, to establish and maintain a capital improvements program.

§ 15-4. Submission of information concerning capital requests; consideration of and recommendation by Committee.

All officers, boards and committees shall each year, on or before the date specified by the Committee, give to the Committee, on the forms prepared by it, information concerning all anticipated capital requests requiring Town Meeting action during the ensuing five years. The Committee shall consider the relative need, impact, timing and cost of these expenditures and the effect each will have on the financial position of the Town. No appropriation shall be voted for a capital improvement requested by a department, board or commission at an Annual Town Meeting, or at any Special Town Meeting, unless the Committee has first made a recommendation to such Annual Town or Special Town Meeting with respect to such proposed capital improvement.

§ 15-5. Annual report; submission of budget.

The Committee shall prepare an annual report recommending a Capital Improvement Budget for the next fiscal year, and Capital Improvement Program, including recommended capital improvements for the following four fiscal years after that. The report shall be submitted to the Board of Selectmen for its consideration and approval. The Board shall submit its approved capital budget to the Town Meeting for adoption by the Town.

§ 15-6. Publication of report and budget.

The Committee's report and the Selectmen's recommended capital budget shall be published and made available in a manner consistent with the distribution of the Advisory Board report. The Committee shall file its original report with the Town Clerk.

Capital Planning Priority Tables

All projects being considered for inclusion in the Capital Improvement Plan shall be grouped by priority according to the scale which follows.

Priority	Description
1	Projects that cannot reasonably be postponed. These projects will include those necessary to immediately protect the public health or safety; to comply with a health or safety mandate of the state or federal government; to alleviate a significant financial liability exposure; to provide for the continuation of a critically-needed Town program; or to meet an emergency situation.
2	Project which should be carried out within a few years in order to meet an anticipated public need; to replace an unsatisfactory or worn out facility; to make a major public facility useable; or to maintain minimum standards of facility usefulness. Projects in this category are generally those needed to reduce or stabilize operating budget costs; prolong the life of an existing capital asset by ten or more years; and/or provide for the continuation of an operating program which is dependent on a capital asset approaching the end of useful life.
3	Projects which are needed in order to meet documented new or expanded public service demands of the Town.
4	Projects which can be postponed or eliminated from immediate consideration for inclusion in the current capital improvement program, because they do not meet an immediate need or have not been subject to adequate planning.

Once the Capital Improvement Priority Scale of 1-4 has been assigned to a project, further review of all projects are done using the additional criteria below.

Category	Description
A	Projects that involve correcting a current Safety or Health issue, and/or to meet a Federal or State legal requirement.
B	Projects that are necessary to maintain the Town's current infrastructure: ---Buildings – Projects necessary to maintain existing Town buildings, not including projects to expand or modernize facilities. ---Equipment – Projects necessary to replace old existing equipment, which is no longer cost effective to repair with similar equipment.
C	Projects that are required to increase capacity of existing infrastructure and facilities in order to accommodate the increase in growth of the Town.
D	Projects that are designed to modernize and upgrade existing Town infrastructure and facilities. Such priorities may be appropriately weighted and adjusted according to: a. The number of actual or potential users of, or those who benefit from, such project, and; b. Quantifiable and Non-quantifiable benefits.

Town of Westminster
Report of the Capital Planning Committee
Fiscal Years 2023 - 2027

Report from the Capital Planning Committee

The primary focus of the Capital Planning Committee is to study, research and make recommendations on capital improvement projects. In addition the committee may develop processes and policies in order to maintain the capital improvement program. A set of financial policies have been created by the Capital Planning Committee and approved by the Board of Selectmen on October 27, 2014. These policies can be found in the Appendix at the end of this document and are key items to the Capital Planning Process.

The Capital Planning Committee has met with the various department heads over the past year and developed the following five year CIP. The committee is pleased to recommend the following report to the Town of Westminster.

FY2023 Capital Plan

The proposed CIP for FY2023 totals **\$2,643,573**. The FY2023 CIP is funded from a combination of sources: Raise & Appropriate (taxes), Stabilization Accounts, Enterprise Funds and Other funding (e.g. Chapter 90, Ambulance Receipts...etc.). The following chart (Chart 1) illustrates the breakdown of the funding for the FY2023 Capital Plan.

For additional details regarding the Capital Plan Proposal please refer to the "Capital Planning Detail Sheets" contained within this document.

FY2023 Capital Plan (cont.)

The purpose of the committee is to study capital (tangible assets and projects) spending requests with a dollar value greater than \$15,000. The committee is charged with preparing annual capital spending recommendations to be submitted to the Board of Selectmen and Advisory Board and to be published in the Advisory Board booklet. The committee is also charged with developing a long range capital plan of at least five years. The following is the FY2023 Recommendation from the Capital Planning Committee.

Table 1
FY2023 Capital Plan

Department	Project	Raise & Appropriate	Capital Equipment Stabilization	Building Maintenance Stabilization	Technology Stabilization	Road Maintenance Stabilization	Water & Sewer Enterprise	Ambulance	Chapter 90	Other
Dept of Public Works	Road Maintenance	\$300,000								
Dept of Public Works	Road Improvement Project					\$500,000				
Dept of Public Works	Storm Water Permit		\$50,000							
Dept of Public Works	2005 John Deere Loader		\$250,000							
Dept of Public Works	2012 JCB Backhoe		\$150,000							
Dept of Public Works	Water Tank - Shady Ave						\$450,000			
Dept of Public Works	Water PRV (4 locations)						\$20,000			
Police Department	Body Worn Cameras		\$68,280							
Police Department	2017 Ford Interceptor		\$59,700							
Fire	2005 KME Ladder Truck		\$100,000							
Fire	2013 Chevy Pickup		\$45,000							
Fire	Chest Compression Machine							\$45,000		
Town (Maintenance)	1998 Ford F150 Pickup Truck									Take Fire PU
Town (Parks & Rec)	Ball Field Design		\$77,200							\$31,000
Town (Parks & Rec)	Playground Design - ARPA									
Technology	Computer Replacement				\$44,000					
Cemetery	2008 Ford F250 Utility Truck		\$50,000							
Schools (MHS & WES)	See Detail sheets			\$222,000						
Schools (Dist/Oak/OL)	See Detail sheets			\$181,393						
Totals		\$300,000	\$850,180	\$403,393	\$44,000	\$500,000	\$470,000	\$45,000	\$0	\$31,000

Stabilization Fund Summary

The goal of the Capital Planning Committee is to develop a fiscally responsible five year CIP and identify funding sources for at least the next three years of the plan. All Capital requests will be reviewed and prioritized by the Capital Planning Committee using a priority table. Furthermore, the five year CIP will be utilized as a planning tool to determine future Stabilization Fund Amounts.

Part of the CIP is funded from Stabilization Funds. Maintaining adequate stabilization fund levels is important to the financial stability of the Town. The Capital Planning Committee has defined minimum levels for each stabilization fund. As the Capital Planning Committee refines the five year CIP and identifies the funding sources the stabilization fund levels will be monitored. Adjustments to the five year CIP and/or funding sources may be required if future Stabilization Fund levels drop too low. Chart 2 illustrates the stabilization fund levels from 2008 through 2020 (amount includes the Capital Equipment, Building Maintenance and Technology Stabilization Funds). Chart 3 lists the stabilization fund amounts after the Fall Town Meeting on 11/17/2020.

The certified free cash for FY2020 was approximately 4.2 million dollars. This is higher than the typical average. The main contributing factor to this higher than average free cash amount was due to local receipts from the landfill. The landfill receipts came in at approximately 2.6 million over the amount estimated. The landfill receipts are expected to continue to exceed the estimated amounts in the future since the long term plan is to eliminate this revenue from the operating budget. Since the landfill will close at some point it is critical that revenue from this source be removed from the operating budget. The recent influx of free cash greatly helped the stabilization fund levels and will help fund the five year CIP.

Chart 2
Combined Amount in 3 Stabilization Funds
(Capital Equipment, Building Maintenance and Technology)

Chart 3
Stabilization Fund Amount on 11/17/2020

Stabilization Funds - Encumbered

An important aspect of the Stabilization Funds is not only the current levels but also the levels over the next five years as they are used to fund the CIP. A portion of the amount in the Stabilization Funds are encumbered or reserved for future capital purchases. This encumbering of funds is essential in funding the five year CIP and ensures that not only will capital purchases happen in a timely manner but the impact of these projects have a minimum effect to the overall budget. The following Table reflects the amounts encumbered in each of the Stabilization Funds over the next five years based on the current CIP.

Table 2
Stabilization Fund Amounts Encumbered to fund the CIP

Stabilization Funds	2023	2024	2025	2026	2027	5 Year Total
Capital Equipment Stabilization	\$850,180	\$691,000	\$1,201,500	\$620,400	\$336,600	\$3,699,680
Building Maintenance Stabilization	\$403,393	\$344,001	\$306,590	\$200,315	\$316,039	\$1,570,338
Technology Stabilization	\$44,000	\$89,000	\$195,000	\$371,000	\$46,000	\$745,000
Road Maintenance Stabilization	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000	\$2,500,000

Taking into account the future Stabilization Fund encumbrances the chart on the right shows the impact to the fund levels.

The fund levels will decline if no additional money is transferred back into the Stabilization Funds. This is an important factor to understand when considering the Stabilization Fund levels. Each year the Town votes to transfer money back into the Stabilization Funds from the Certified Free Cash.

The amount transferred back into the Stabilization Funds is something that the Capital Planning Committee recommends based on the five year CIP. The amount transferred into the Stabilization Funds is part of a plan based on what is expected to be used in the future.

Some of the amounts in the Stabilization Funds reflected in FY2025 fall below the minimum stabilization fund levels established by the Capital Planning Committee in their Reserve Policy.

Debt Summary

A comprehensive CIP involves a strategy that includes a debt management plan. The debt management plan should be developed to meet the financing needs of the Town in a cost effective manner, taking into account Town priorities, as well as legal, financial, and structural considerations. The Capital Planning Committee has defined a debt policy to ensure that debt is managed within sustainable levels based upon annual revenues.

The following Table below show the current five year debt projections: (updated on 1/13/20). The information is broken out to show the date of vote, debt excluded vs non-debt excluded, amount and mature date of the projects.

Table 3
Debt Summary - 5 year projection

Description	Date of Vote/Issue	Debt Excluded	Amount Voted	Debt Matured	FY2023	FY2024	FY2025	FY2026	FY2027
*Sewer Extension Bond	4/15/2004	Yes	\$3,515,000	FY2019	Matured				
*Sewer Extension Bond - Interest									
Rte 140 Design	5/2/2015	No	\$410,000	FY2024	\$82,000	\$82,000	\$82,000		
Rte 140 Design - Interest					\$7,380	TBD	TBD		
Senior Center Bond	4/1/2015	Yes	\$2,830,100	FY2030	\$190,000	\$190,000	\$190,000	\$190,000	\$190,000
Senior Center Bond - Interest					\$45,800	\$42,000	\$37,250	\$32,500	\$32,500
**Water Storage Tank - Ellis Road - BAN	11/17/2020	No	\$1,920,000	TBD	\$0	TBD	TBD	TBD	TBD
**Water Storage Tank - Ellis Road - Interest					\$57,600				
**Water Main Replacement	2/6/2013	No	\$600,000	FY2018	Matured				
**Water Main Replacement - Interest									
Septic Management Plan	5/4/2013	No	\$300,000	FY2039	\$15,000	\$15,000	\$15,000	\$15,000	\$15,000
Septic Management Plan - Interest					\$0	\$0	\$0	\$0	\$0
2018 KME Fire Pumper/Tanker	11/27/2018	No	\$600,000	FY2024	\$120,000	\$120,000	\$120,000		
2018 KME Fire Pumper/Tanker - Interest					\$2,196	TBD	TBD		
2001 KME Fire Engine	7/10/2001	No	\$600,000	FY2030			\$160,000	\$160,000	\$160,000
2001 KME Fire Engine - Interest							TBD	TBD	TBD
New Tanker Truck (Fire)							\$50,000	\$50,000	\$50,000
New Tanker Truck - Interest							TBD	TBD	TBD
****Sewer In-line Storage Project	4/11/2016	Yes	\$2,500,000	FY2059	53,554	53,554	53,554	53,554	53,554
****Sewer In-line Storage Project - Interest					54,371	51,546	50,073	48,600	47,128

* 50% paid through betterment

****85% taxation and 15% from sewer enterprise

** Water Receipts Reserve

***Authorized and Unissued Debt

Enterprise Funds

Enterprise funds establish a separate accounting and financial reporting mechanism for municipal services for which a fee is charged in exchange for goods and services. The Town has three enterprise funds (water, sewer and transfer station). Some of the items on the CIP are funded by the enterprise funds. For example, if a pick up truck used by the water/sewer department is in need of replacement, then the funding for a new truck would come from the water and sewer enterprise funds. In addition some items on the debt schedule are funded or partially funded by the enterprise funds (this is noted on the debt schedule - see previous page).

Similar to the stabilization funds, the enterprise fund levels must be maintained at adequate levels for financial stability. The chart on the right shows the Sewer, Water and Transfer Station Enterprise levels from 2009 to 2020.

The Water Enterprise Fund level has increased from \$380,726 in 2009 to \$1,340,709 in 2020. The Sewer Enterprise Fund level has declined from 2009 to 2015. In 2009 the Sewer Enterprise fund was slightly under 1.2 million dollars. In 2015 the fund was at \$263,344. The Sewer Enterprise fund has increased the last five years with the 2020 amount of \$978,662.

Approximately 47% of the Sewer Enterprise expenditures are for collection charges paid to the City of Fitchburg. Another 26% is used to pay the debt for the sewer extension bond.

Overall, the status of the Town's financial position is positive. The stabilization funds have been restored to adequate levels and the Town now has an adopted policy addressing these funds and their minimum levels. In addition the five year CIP is successfully leveraging these funds for future capital expenses and thus keeping the amount needed to raise & appropriate from taxes consistent year over year. The Enterprise Fund levels are being monitored and the long range plan is to grow these levels in order to support future capital projects.

The next few pages of the report are intended to expand on a few of the larger Capital Improvement Projects that are either currently on the plan or are expected to be added in the new few years. The goal is to inform and increase the awareness of these projects to the residents of Westminster.

Route 140 Design Project

A project for the engineering design of Route 140, i.e., Hager Park and Worcester Roads was approved at the May 2, 2015 Annual Town Meeting. This project will address a number of road repairs/deficiencies and flooding issues along the roadway. The area on Worcester Road in the vicinity of Mile Hill and Gatehouse Roads in particular has flooding issues and is a safety concern. The project has been split into two, Project 1 Narrows Road to Patricia Road and Project 2 Patricia Road to Princeton town line. Project 1 has been advertised and will begin construction in 2021. Project 2 is at 75% design submittal review with MassDOT with a proposed construction in 2023/2024. Both projects have been approved for Transportation Improvement Program (TIP) funding. TIP is a multi-year program of capital improvements that reflect the needs of the regional transportation system.

Water Storage Tank (Ellis Road Standpipe) Project

A project for replacing the water storage tank on Ellis Road was voted at the FY2019 Annual Town Meeting. The cost of this project is estimated to be 1.7 million dollars. Funding this project will be borrowed and paid back from the Water Enterprise Retained Earnings. The existing storage tank is at the end of its useful life (60+ years old). Construction will start in 2021.

Water Main Improvement Program

An ongoing project to replace/upgrade aging/deficient water mains to improve water quality, fire protection and water storage tank tracking over a period of 20-years. The Water Department's water main improvement program plan is to replace approximately 30,000 linear feet of water main over the twenty-year period (approximately 14% of the water system).

Whitmanville Road Bridge Design Project

The engineering and construction for this project has been fully funded with state/federal monies. MassDOT performs inspections on municipal owned bridges that have a clear span > 20 feet and performed inspections on this bridge which showed a need to replace the bridge. The project has been awarded and construction started in 2020.

Old Town Farm Road Culvert Replacement

Engineering and construction costs to replace twin 36-inch culverts with a single culvert. The replacement will protect the dead-end roadway as well as aid in reducing debris blockage and provide for better fish passage.

MS4 Storm water Permit

This request is for the U.S. EPA's NPDES Municipal Separate Storm Sewer Systems (MS4) 5-year permit jointly issued by EPA and MassDEP that became effective in 2018. Monies are used for consultant support in annual permit compliance. This request is for the newly issued NPDES Massachusetts Small Municipal Separate Storm Sewer System (MS4) General Permit issued by the U.S. EPA. Money needs to be set aside in free cash for annual permit compliance.

Sewer Extension Projects

Multiple projects to extend sewers in environmentally sensitive areas in Town is being discussed/reviewed by the Public Works Commission. Projects include extending sanitary sewer in CWMP Phases 1, 2 & 4 which include the following areas in Town: Phase 1-Leino Park, Lakewood Park, Dawley Road, Phase 2-Lake Drive East/Edro Isle and Phase 3-Bacon Street. Preliminary engineering/construction costs for the projects range from \$2.5 M to \$4.0 M. Each phase is expected to take 3 years from design to end of construction.

Multi-Year Road Improvement Project

A multi-year road improvement plan for repairing and improving town roads is part of the CIP. It is funded by a combination of the Annual Road Maintenance appropriation, MassDOT Chapter 90 and Road Maintenance Stabilization funds. Funding for this project is dependent on landfill revenue. Once the landfill is closed, transfers to the Road Maintenance Stabilization Fund from landfill revenue will cease.

Public Safety Building

A public safety building committee has been formed and have been meeting to come up with a plan for the Public Safety Building. The current building has limited storage and the committee is looking at options for expansion of the existing building or possibly moving one or both department(s) to a new location.

Tower Ladder

A project for replacing the Tower Ladder is not yet on the five year CIP but is currently slated for FY2030. Although FY2030 is a number of years away, it is important to start discussing funding options now in order to have the least amount of impact to the tax payers. A Tower Ladder provides significant advantages over the traditional ladder truck with the main advantage being safety. A fire fighter can safely maneuver the bucket into position to best fight a fire and does not have to climb up and down a ladder that is wet and sometimes frozen. In addition, in a rescue situation rescued persons can be lowered to the ground rather than having to climb down a ladder. Another advantage is reach - a tower can extend out as well as up thus allowing a fire fighter to reach a home from the road. With all light weight construction buildings are made to depend on each component to support its own weight. When fire weakens one or more the building fall down faster endangering the people and firefighters. Another major advantage to a tower is that it can operate in any angle fully extended without fear of collapsing. This vehicle also allows us to operate with fewer people because of the safety factor.

Fiscal Years 2023 - 2027

CAPITAL IMPROVEMENT PLAN DETAIL SHEET

Project Title: Road Maintenance		Fiscal Year: 2023 - 2027	
Department: Highway - 422		Category/Priority: 1B	Article#
Date Acquired		Item #: DPW - R	
Purchase <input checked="" type="checkbox"/> Lease <input type="checkbox"/>	# of Units	EUL	Trade In: Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
		Trade in Amount: \$	

Description and Justification

This request is for the annual road maintenance costs. These include the purchase of materials for road work such as drainage pipes, catch basins, manholes, gravel, and crushed stone. It also pays for catch basin cleaning, guardrail repair and replacement, sidewalk repair and replacement, asphalt for pot hole repairs, asphalt for paving, preventative maintenance such as crack sealing and stone sealing, and capital improvements such as reclaiming and paving, mill and overlay, berms, and tree removal.

Project Title: Road Improvement Project		Fiscal Year: 2023 - 2027	
Department: Highway - 422		Category/Priority: 1B	Article#
Date Acquired		Item #: DPW - R	
Purchase <input checked="" type="checkbox"/> Lease <input type="checkbox"/>	# of Units	EUL	Trade In: Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
		Trade in Amount: \$	

Description and Justification

This request supplements the Annual Road Maintenance appropriation article as well as MassDOT Chapter 90 funding for the multi-year road improvement plan. This item is dependent on funding from landfill revenue. In the event the landfill closes or revenue decreases this item would be discussed/considered to be eliminated or reduced. Once the landfill is closed, transfers to the Road Maintenance Stabilization from landfill revenue would cease. The multi-year road improvement plan is for repairing and improving town roads and will utilize the town Pavement Management System program as guidance.

Project Title: 2016 Ford Explorer		Fiscal Year 2024	
Department: Fire	Category/Priority 1B	Article#	
Date Acquired 10/1/2015	Item # VE-20 (Car 1)		
Purchase <input checked="" type="checkbox"/> Lease <input type="checkbox"/>	# of Units 2	EUL 10	Trade In Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
		Trade in Amount \$	

Description and Justification

This request is to replace the 2016 Ford Explorer. This vehicle is the primary vehicle used by the Captain. This vehicle is used for responding to medical, fire and rescue calls. It is also one of two command and control vehicles containing radio and communication equipment used during major incidents. The vehicle incurs excessive wear due to the nature of the job. It experiences long idle times and frequent above average driving conditions.

Purchase <input checked="" type="checkbox"/> Lease <input type="checkbox"/>	# of Units 1	EUL 8	Trade In Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
		Trade in Amount	

Description and Justification

Planned replacements of the brush truck/mini pumper. This vehicle has multiple uses including off road use for brush fires, use in place of larger vehicles when 4x4 capability is needed for fast attack and reduce wear on larger vehicle for response to special hazard areas. This vehicle receives more frequently use by the department for incidents that do not require the response of a large vehicle to reduce wear on the larger vehicles.

Town of Westminster
Appendix
Financial Policies

TOWN OF WESTMINSTER
Capital Improvement Budget Policies
Updated as of 9/16/14

Purpose:

The Capital Improvement Plan (CIP) is a multi-year plan used to determine the financing and timing of capital projects for the Town of Westminster. It contains a list of capital projects proposed for the Town within the next five years and reflects the recommendations of citizens, boards, commissions, and staff from each of the Town departments. The CIP provides an overview of each proposed project and lists the cost, funding method and the fiscal year the estimated expenditures will take place.

Policy:

1. The Town will develop a multi-year capital plan following the Town's adopted financial policies and priorities. The Capital Planning Committee may consider items not currently on the multi-year capital plan in order for the Town to take advantage of time sensitive opportunities, alternative funding sources, and in cases of public safety.
2. The Town Capital Planning Committee will recommend an annual capital budget based on the multi-year capital improvement plan.
3. The Town departments, Committees and Boards will develop their capital equipment replacement plan to be included in the multi-year capital plan. Additionally, the Departments, Committees, and Boards should estimate any additional maintenance costs on that equipment, to be included in the development of the Town's operating budget.
4. Capital needs shall be identified and placed on the capital plan regardless of funding source. No additional capital equipment shall be acquired outside of the capital plan. (For example, donated, department transfer, and grant funded purchases).
5. The Town will maintain all its assets at a level adequate to protect the Town's capital investment and to minimize future maintenance and replacement costs.
6. The Town, as part of its capital planning process, will project its equipment replacement and maintenance needs for at least the next 5 years and will update this projection each year. From this projection, a maintenance and replacement schedule will be developed and followed.
7. The Capital Planning Committee will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted to Town Meeting for approval.
8. The Capital Planning Committee will determine the least costly financing method for all new projects.
9. Future capital requests that are targeted for funding from Stabilization Funds should be noted in the CIP. The CIP should also show the current Stabilization Fund balances and the balances based on the future capital requests.
10. If capital equipment is acquired for free, it should be replaced for free to prevent fleet creep.
11. For seldom used equipment, departments should look into renting, leasing or borrowing equipment when possible.

TOWN OF WESTMINSTER
Debt Management Policy
Updated as of 9/16/14

Purpose:

- To establish criteria for the issuance of debt obligations so as not to exceed acceptable levels of indebtedness,
- To incorporate the Town's Capital Improvement Plan, which reflects a commitment to meet infrastructure needs through a planned program of future financing,
- To make available to investors and rating agencies evidence of the Town's commitment to financial management, and
- To state the guiding principles and general policies related to debt management.

Policy:

1. The Town will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues
2. On an annual basis, the Town Treasurer in conjunction with the Town Accountant and Capital Planning Committee will evaluate debt-funding scenarios, including proposed lease-purchase financings, as part of its annual Five-Year Capital Improvement Program process in order to prioritize future financing needs.
3. Total annual debt service for general obligation debt (principal & interest) should not exceed 5% of total annual estimated operating revenue¹.
4. Total general-obligation debt will not exceed that provided in the state statute under Mass General Laws Chapter 44 Section 10 which is 5% of Equalized Valuations².
5. The Town will finance capital projects through the issuance of debt for the shortest period practical but in any event not in excess of the anticipated useful life of the financed asset.
6. Where possible, the Town will use special assessment, revenues or other self-supporting bonds, instead of general obligation bonds.
7. The Town will not fund current operating expenditures through the issuance of debt (other than in connection with the issuance of tax anticipation notes).
8. During emergency situations, the Town may issue debt to provide emergency infrastructure repairs or replacement.
9. The Town may issue bond anticipation notes as a form of short-term permanent financing (generally up to five years under the current statutes) by renewing the notes over a number of years and reducing the principal amount of notes on renewal.
10. When bond anticipation notes are issued on capital projects that require long term financing, the Town will retire bond anticipation debt within six months after completion of the project.
11. The Town will maintain good communications with bond rating agencies about its financial condition. The Town will follow a policy of full disclosure on every financial report and bond prospectus per SEC regulations.

¹ Total annual estimated operating revenue is the Town's combined estimated local receipts, state aid & property taxes

² An estimate of the full and fair cash value of all property in the Commonwealth as of a certain taxable date

TOWN OF WESTMINSTER
Reserve Policy
Updated as of 9/16/14

Purpose:

- To establish criteria for determining target balances for free cash and stabilization funds.
- To improve financial planning and help preserve the Town's financial position and credit rating.
- To incorporate funding of the Town's Capital Improvement Plan, which reflects a commitment to meet infrastructure needs through a planned program of future financing.

Free Cash Policy:

1. The Town will strive to generate an annual certified free cash balance in an amount equal to 3 to 5 percent of its total annual estimated operating revenue¹.
2. Free cash will be considered a non-recurring revenue source and should only be used to fund one- time expenditures, a capital purpose or to replenish other reserves and should not be used to directly supplement current year departmental operations.
3. Free cash will not be depleted in any years, so that the following year's calculation will begin with a positive balance. A minimum balance of \$250,000 should be maintained annually.
4. The use of free cash requires an appropriation by Town meeting and must never be used unless certified by the Department of Revenue.
5. If free cash is used to stabilize the tax levy, the Town should retain an incrementally larger portion of free cash as unexpended to either serve as a beginning point in the subsequent year's free cash calculation, or to fund one-time capital purchases or the stabilization fund. For example when distributing the certified free cash to the stabilization funds the amount of free cash held back should include the amount forecasted to be used in the next fiscal year to stabilize the tax levy and the minimum balance amount listed above.

Stabilization Fund Policy:

1. The Town will strive to maintain minimum stabilization fund balances as follows:

Stabilization Fund- General	\$1,000,000
Stabilization Fund-Capital Equipment	\$200,000
Stabilization Fund-Building Maintenance	\$100,000
Stabilization Fund-Technology	\$50,000
Stabilization Fund-Other Post-Employment Benefits	\$50,000
Stabilization Fund-Road Maintenance	\$50,000
(The total combined balances in all funds may not exceed 10% of Equalized Valuation ²)	

2. The Town will restrict the use of stabilization funds to non-recurring expenditures and capital needs.
3. In accordance with Mass General Law, all appropriations into and out of the stabilization funds require a 2/3 vote of Town meeting.
4. Expenditures from stabilization funds shall be restricted to the specific purpose for which the fund was established (unless a transfer to another existing stabilization fund) and may include debt service.

¹ Total annual estimated operating revenue is the Town's combined estimated local receipts, state aid & property taxes

² An estimate of the full and fair cash value of all property in the Commonwealth as of a certain taxable date
